

Dear Valued Customer:

At Peoples Bank of Wyaconda, the health and safety of our customers and employees remain our top priority as news continues to circulate regarding the spread of the novel Coronavirus (COVID-19). We wanted to share information with you about how we're continuing to operate safely and effectively during this time.

What we are doing:

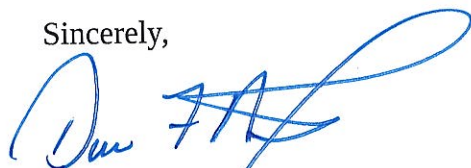

- We are actively monitoring updates, news, and suggested practices from the CDC and Missouri Dept. of Health, as well as other Federal, State, and local government agencies to ensure we're responding as appropriately as possible.
- We are taking extra precautions to keep our branches, ATM's and other shared spaces clean. This includes wiping down the bank 2 times a day at every location.
- Requiring staff members to continually wash their hands after handling transactions.
- At this time all of our locations are providing all services. Should this change (drive up only services) we will provide an update on our website, Facebook and other forms of notification.

For Further information and actions you can take:

- Visit the CDC's and Missouri Dept of Health's websites to learn more about the Coronavirus and recommended practices for your safety and the control of this virus. Both of these sites provide factual information.
- Learn more about our mobile and online banking platform which enables you to bank from home or remotely.
- Utilize our drive up windows and night deposit boxes. We will be checking our night deposit boxes several times throughout each day.

We are and will continue to do all we can to help minimize the spread of the virus.
Should you have any questions or concerns, please call one of our 3 locations.

Sincerely,

David F Alderton Jr.
President and Chairman of the Board

Brian Alderton
CEO and Vice Chairman of the Board
